What's New in the Scan Attach For Outlook?

* Scan & Attach is a handy Outlook plugin that saves you time whenever you want to scan a document and send it as Outlook email attachment. It adds a "Scan & Attach" button to new Outlook emails and replies. When that button is clicked the scanner begins the scanning process. The scanned image will then directly be attached to the Outlook email as a PDF, TIFF, JPEG, PNG or BMP file. * When required the "Scan & Preview" button opens a full blown image editor. All the options you may possibly need to adjust, crop, flip or reorder the scanned images before attaching them to the Outlook email are there. The editor supports multiple languages and 18 different skins to offer you the interface that you prefer best. 5. Outlook Scans - Business & Productivity Tools... Outlook Scans lets you send one or more scans as attachments to an email message. Once the scan is complete, it's a snap to attach the image to your email. No more frustrated

moments waiting for the scan to be completed. Just attach the scan to the email and send it on its way. All your scans will be sent to a specified folder. Outlook Scans will help you save time and energy by automating the process of scanning and sending your scanned documents. Outlook Scans will take your thoughts out of the loop and help you with your document scanning routine with ease. Key Features ? Snap-Shot: Send multiple scans as an email attachment, saving time and energy ? Facial recognition: Recognize faces in scanned documents for easy text extraction ?
